** BRAZIL. 11780, Aug 29 at 2159, RNB/RNA not off the air but JBA direct (Glenn Hauser, OK, WOR)

** BRAZIL. 11780, Aug 30 at 0149, token English from RNB/RNA, yet again repeating snippets about the anniversary of the Parque Rodeador hi-power SWBC site. S9+10/25 into Bonaire SDR, much better than into Brasila. 0153 outro that there was an AI voice - so that`s why he was speaking perfect Amerenglish. Portuguese break then into same in Spanish, must be another AI, but with a Castilian accent (Glenn Hauser, OK, WOR)

** BRAZIL. 28405+USB, Aug 29 at 2220, PY2FZ, with quick contacts, spells BAURU, CCI from an LU calling CQDX in English: they probably can`t hear each other, too close. QRZ.com: ``PY2FZ Brazil flag Brazil, Helio "Bono" Bono, Avenida Antenor de Almeida, 3-199, Condominio Chacara Odete, Bauru, SP 17047590, Brazil`` (Glenn Hauser, OK, WOR)

** CHINA. 21800, Aug 30 at 2323, JBA Chinese, jammer vs SOH. Then many more JBA carriers with flutter and Doppler flutter, all jammers against SOH per Aoki: 21530, 21490, 18970, 18900, several inside 16 mb, by 2329 on 16100, 15970, 15920, 15870 (Glenn Hauser, OK, WOR)

** CHINA. 13690, Sept 3 at 2211, music at S9+20 but very heavy flutter and Doppler flutter, as appropriate for CRI Spanish via Shijiazhuan site, 500 kW at 315 degrees, i.e. NW thru the Siberian auroral zone on the way to target Spain, but much closer to transpolar toward here (Glenn Hauser, OK, WOR)

** CUBA. 15230, Aug 29 at 2204, RHC Spanish, S9+10 and suptorted but readable, yay! // 13780 also S9+10 with goodmod, but 2215 recheck, 13780 deadair while 15230 continues. Somethings always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 13780, Aug 30 at 2332, RHC with jazz, some distortion, S9+10/20. 15230 & 11760 are not on. 13650 at 2330, Chinese music relay S9+10 and distorted. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 6000, Aug 31 at 0146, RHC with jazz, English announcement but distorted, S9/+15 into Knoxville remote. Tnx to tip from Chris Campbell who says it`s been almost a year since he last heard them in English. But it has been occasionally, sporadic. 0323 about the Spanish/American war which of course led to Cuban independence (Glenn Hauser, OK, WOR)

** CUBA. 6000, Sept 1 at 0447, RHC English S9+30 distorted, about Kohima? Doubt really city in India but similar sound. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 15230, Sept 1 at 1500, dead air from RHC; 13780 JBA in Spanish, then also 11760 at S5/S7. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 11760, Sept 1 at 2213, RHC with undermodulated music and squeal, S9+30, but no signals on 13780 or 15230. Somethings always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 15230, Sept 2 at 1454, RHC Spanish S5/S6, undermodulated and not too distorted; nothing on 13780 (Glenn Hauser, OK, WOR)

** CUBA. 9710, Sept 3 at 0104, 0230, 0402 chex, no signal from RHC, nor on 6000; previous night had reports from Ron Trotto and Tony Pavick of RHC English on 9710 (Glenn Hauser, OK, WOR)

** CUBA. 15230, Sept 2 at 2213, RHC Spanish, S9+10 and not suptorted,

much stronger on // 13780 S9+10/20; and some other music on 11760, China? (Glenn Hauser, OK, WOR)

** CUBA. Chris Campbell says he got this from his RHC contact today Sept 3:

``This is the latest information about RHC`s shortwave service. As of yesterday, broadcasts resumed from the Nauta {sic: Bauta} Center on transmitters 4 and 5 on frequencies 11760, 15140 and 11950 kHz. We now have programs on shortwave. The 2:00 a.m. English program, which was scheduled to air on 6100 kHz, is now being broadcast on 11760 because there is no antenna for that frequency``

Then I check 15140 at 1846 and get a JBA carrier direct. After 1900 into Georgia? remote it is RHC in English but VP signal. The 1900 English broadcast had not been heard for many months.

Further chex at 2159 direct: 15230 is on with algo, no 15140 or 13780. At 2350, none of all these frequencies audible into Maryland SDR (Glenn Hauser, OK, WOR)

** CHILE. 28510+USB, Aug 29 at 2207, someone in the 4a región; 2218 ID as CE2LE, Carlos, contact WX7F, then CQDX. QRZ.com: ``CE2LE Chile flag Chile, Carlos Aranda Albornoz, PO Box 107, La Serena 1700000, Chile - Hello friends, now I have a new call sign, CE2LE, very proud to carry the call sign of my friend and mentor, sergio correa, who is no longer in this world, a hug. CE2LE ALWAYS AL AIR. Greetings to all my friends radioperators of the world, my name is Carlos. my city is the Serena, very nice city whith nice weather, extensive beachs, is located 500 km north of Santiago capital city, we also have a nice valley (valley elqui), with the cleanest skies in de world, peace and tranquility. I work in mining, I am operator of heavy machinery`` (Glenn Hauser, OK, WOR)

** CHILE. 28475 USB, Sept 1 at 2202, ``Aloha`` in Spanish, tail of KH6 contact? Then it`s CE4J#O with CQ in English, contacting WA4AV. DXheat/cluster fills in the missing letter: CE4JZO with WA4AV at 2205 on this very frequency. QRZ.com: ``CE4JZO Chile flag Chile, Federico Edo. "Kiko" Concha Traverso-, Avda. La Estancia N° 413, Comuna Machali, Sexta Región, Rancagua- 2910000, Chile``. Only one other phone signal on 10m, 28435 USB unID, and no beacons, but got a Guat on 12, q.v. (Glenn Hauser, OK, WOR)

** EAST TURKISTAN. 13740, Aug 30 at 2331, S9+10/20 Spanish with fluttter, mentions China, for it`s CRI to S America via Kashgar (Glenn Hauser, OK, WOR)

** FRANCE. 11700 & 13695, Aug 29 at 0636, weak, `hollow` signals in French as usual from RFI Issoudun. Not clear whether a strike affected SW; one report about that via Mike Cooper, Aug 25: ``[WOR] indefinite Radio France strike began today -- A strike of indefinite length has been launched at Radio France. The trade union CGT Radio France says negotiations are at a stalemate. The strike date was announced in July. Stations are broadcasting this announcement:

"En raison d'un appel `a la greve depose par l'ensemble des organisations syndicales representatives de Radio France contre la strategie editoriale et les reformes menees par la direction dans un contexte d'economies, nous ne sommes pas en mesure de diffuser l'integralite de nos programmes habituels." {sic: accents stripped}

A major point of contention is that the French culture minister wants to combine France Medias Monde, France Televisions, Radio France and the National Audiovisual Institute (INA) into one organization with a single chief executive officer. The plan would also close some radio

stations and cut jobs.

Forty-one of Radio France's 44 radio stations objected this spring to
a proposed new fall schedule. Employees say there have been no
discussions or changes to the proposed schedule, leaving them with the
impression that they are being ignored, according to Benoit Allard, a
technician at Ici Pays d'Auvergne quoted by France 3 Television.

An RFI story (in French) on the strike:
https://www.rfi.fr/fr/culture/20250825-gr%C3%A8ve-illimit%C3%A9e-%C3%A0-radio-france-les-diff%C3%A9rentes-r%C3%A9formes-dans-le-viseur-des-syndicats

mc`` (Glenn Hauser, OK, WORLD OF RADIO 2310)

** GUATEMALA. 24985 USB, Sept 1 at 2207, TG9AHM calling CQ in English,
OSOB. QRZ.com: ``TG9AHM Guatemala flag Guatemala, EMMANUEL H. MIERES
G. (Manny), 19 CALLE 10-38 ZONA 11 COL. MARISCAL, BOSQUES DE MARISCAL,
CIUDAD DE GUATEMALA 01011, Guatemala`` (Glenn Hauser, OK, WOR)

** JAPAN [non]. 6165, Sept 1 at 0449, JBA M&W talk, language not
clear, off at 0450*. EiBi shows NHK Russian at 0430-0450 via Nauen,
GERMANY (Glenn Hauser, OK, WOR)

** MALI. 11975, Sept 1 at 2215, French with flutter and rumble,
S9+10/20. It`s CRI relay at 2130-2230 for N Africa (Glenn Hauser, OK,
WOR)

** NORTH AMERICA. 6945 AM, Aug 30 at 2326, pirate music, S9+10,
stronger than the others but no ID circa 0000; then at 0002 playing
music with double-beeps every two seconds. More logs as unID:
https://www.hfunderground.com/board/index.php/topic,149470.0.html
but at 0047 as Radio 48 on Mix Radio International (Glenn Hauser, OK,
WOR)

** NORTH AMERICA. 6935 AM, Aug 30 at 2327, JBA pirate music still at
2358. Many logs here as WDOG:
https://www.hfunderground.com/board/index.php/topic,149467.0.html
(Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6845 USB, Aug 30 at 2328, pirate music, still at
2358; and at 0000 Aug 31 YL ID as ``You are listening to Mix Radio
International Worldwide``. Many more logs here including H2Ofall pix:
https://www.hfunderground.com/board/index.php/topic,149461.0.html
(Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6965 USB, Sept 1 at 0431, pirate music, S9/+10 and
still at 0451. Many reports here as V-Sky Radio starting at 0004:
https://www.hfunderground.com/board/index.php/topic,149553.0.html
including from station himself inviting requests. Past 0512, or even
0748? (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6950.83 AM, Sept 1 at 0432, pirate music, S9+10 vs
HSNL. Reports here as R. Free Euphonia on 6950/6951:
https://www.hfunderground.com/board/index.php/topic,149567.0.html
(Glenn Hauser, OK, WOR)

** OKLAHOMA [and non]. Re Skyview tones QRMing 780 WBBM:

``Hi Glenn - Ran this thru ChatGPT, to see what AI thought about it.
Ron

``What you describe is very intriguing DX-wise. Let’s break it down:

Your log:
Date/time: Sept 1, 0640 UT
Frequency: 780 kHz
Station normally there: WBBM Chicago (dominant on 780 at night)
What you heard: Equal-strength QRM, repeating ~70-second loop of Skyview Networks test tones (L/R channels, then both), plus a voice message calling for “internet connection” and giving the Skyview ops center phone number 877-503-8910.

Possibilities

WBBM technical issue / mixup
WBBM is a Skyview client (Skyview distributes CBS/Westwood One content, and handles network ad insertion).
If their STL (studio-to-transmitter link) or satellite receiver hiccupped, the Skyview receiver could have defaulted to its test loop, thus being heard on air mixed with program.
The “call the operations center” message is meant for engineers when the receiver is out of sync.

Another Skyview affiliate bleeding in
KSPI Stillwater, OK, is indeed on 780, but it’s a daytimer (500 W). It should have been off the air at 0640 UT (01:40 CDT). If it wasn’t, maybe it was running satellite network feed (via Skyview) unattended overnight.

However, with equal strength to WBBM in Oklahoma, that would be unusual—KSPI runs only 250 W at night if authorized (but FCC shows daytimer).

Imposter / spur / crossfeed
Less likely, but another station in the region could have been airing Skyview’s loop due to automation misconfiguration.

If it was truly “equal strength” with WBBM in Oklahoma, that points toward a local/regional source, not just WBBM alone.

My take

Most likely it was WBBM itself briefly radiating the Skyview test loop due to a network receiver failure. The fact you heard both WBBM and the loop “equal strength” could have been their audio chain mixing the live program with the backup/test channel.

KSPI or another Oklahoma station seems less likely at that hour, unless it was mistakenly left on at night running satellite automation.

📌 What you might do:

Check KSPI’s official FCC license (it’s indeed daytimer only). If they were on at 01:40 CDT, that would be unauthorized nighttime operation.

If this repeats, it’s more probably WBBM itself having an uplink/network receiver issue.`` (via Ron Howard)

This is more or less to be expected, except AI does not know that from my previous experience, KSPI daytimer *can* be on overnight, and at nearby groundwave range, will be steady and as strong as WBBM via skywave. KSPI is 250 watts, not 500. It was not very brief, but maybe 5 minutes before I tuned away. No such problem 24 hours later (Glenn Hauser, Enid OK, WOR)

** OKLAHOMA. 930, Aug 30 at 2340 UT, dead air from WKY OKC, still dead at chex 2342, 2357, Aug 31 0002, 0101 and still 0314! Who cares. What

would Gaylord say? 0635 still. 1416 STILL! and 1922 **STILL**. Surely someone at WKY will have noticed by now, maybe not an easy fix? But it is a holiday weekend (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 930, WKY OKC continues unmodulated for hours and hours, days and days! As noted at: 2253 UT Aug 31; UT Sept 1, 0433, 0500, 1452, 1854! Assuming management may know about this, is there anything to be gained by leaving the dead carrier on for several days? (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 930, Sept 1 at 2156, 2218 UT chex, WKY OKC *STILL* in dead air; also Sept 2 at 0625, and **STILL** at 1452, even tho the holiday is over. First noticed Aug 30 at 2340, 63+ hours ago. FINALLY by 1713 UT check Sept 2, WKY has resumed modulating stupid sports talk (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 1210 kHz, Aug 29 at 0706 UT, KGYN Guymon with weather forecast for Thursday, but it`s already Friday! Maybe only one day out of date rather than one week the last time. Who cares about being subservient to WPHT? Radio-locator says 22/10 kW ``non-direxional two modes`` - whatever that mean; but night pattern supposedly pulled in toward Philly (Glenn Hauser, OK, WOR)

** OKLAHOMA [and non]. 91.3, Sept 4 at 2118 UT, local on 91.1 is off, clearing the way for an AFR station on 91.3, which per WTFDA FMDB must be: ``KAXR 91.3 ARKANSAS CITY KS 13.5 kW 98.0 m 36-55-32 97-01-34 RELIGIOUS TEACHING  AMERICAN FAMILY RADIO 85167``

91.1 is Air One in Enid: ``KKRD relay of:KAIV 92.7 91.1 ENID OK 0.45 kW 63.0 m 36-23-57 97-52-48 2C25 1073KKRD - CONTEMPORARY CHRISTIAN AIR1 19603`` - meanwhile the adjacent Air1 on 90.9 in OKC is still there.

KKRD coordinates are I believe on the Broadway Tower in downtown Enid, so I check whether another station there at exactly same coordinates is also off? Yes! ``K288FX relay of:KYLV 88.9 105.5 NORTH ENID OK 0.25 kW 0.0 m 36-23-57 97-52-48 CONTEMPORARY CHRISTIAN K-LOVE 140182``

On 105.5 at 2119 I hear instead ``Cowboy Country 105.5`` which is normally blocked: ``KGFY 105.5 STILLWATER OK 4.2 kW 119.8 m 36-10-47 97-00-38 COUNTRY COWBOY COUNTRY 105.5 22267`` By next check 2203 UT however, 91.1 is back on and 91.3 cannot be heard; 105.5 not rechecked (Glenn Hauser, Enid, WOR)

** SPAIN. 17715, Fri Aug 29 at 2200, REE S9+10/20 still in Spanish, no English, and also only on very weak 15390 (Glenn Hauser, OK, WOR)

** SPAIN. 17715, S9+20/30 direct and VP 15390, music from REE, 2200 accurate timesignal and RNE program in Spanish, domestic relay? instead of English, which supposedly resumes on Wednesdays only at 2200-2300, first at 1004, when presumably not on SW (Glenn Hauser, OK, WOR)

** SPAIN. 17715 S9+20 and 15390 JBA, Sept 2 at 2211, REE here but still absent from 15500 & 15520 during non-English. Something`s notright at Noblejas (Glenn Hauser, OK, WOR)

** SPAIN. 17715 and much weaker 15390, still no 15500 or 15520, Wed Sept 3 at 2158 we are all set for resumption of SNR English with a publicized 1-hour weekly broadcast - but NO SHOW! 2200 instead RNE ID (not REE) and `Futuro Abierto` program about sleeplessness - insomnia in Spanish.

Jean-Michel Aubier reports on the earlier Wed scheduled English: ``But no English broadcast at 1004 (12.04 local time) on the livestream

although the website indicates a transmission at this time (Spanish instead)`` - will they ever get their act together? (Glenn Hauser, OK, WOR)

** SWAZILAND. 11880, Sept 3 at 1459, tinkling TWR IS, JBA. Manzini about to start Somali; may be long-path (Glenn Hauser, OK, WOR)

** TURKEY. 11785.004, Aug 29 at 2159, VOT IS & ID in English, not off the air, S9+10/20 direct but JBM to undermodulated. At 2244 into UTwente when measured, S9+25/45, somewhat undermodulated, starting `Did You Know That`, something about fish migration but I shall not strain to understand more than 20% of the words emanating from the larynx of Efsun. 2249 music. 2254 s/off as if 1230 on 17620: something`s always awry at Ankara. 2254.6 IS. 2256 pause and restart IS with German IDs: something`s always erroneous at Emirler, until 2258* (Glenn Hauser, OK, WOR)

** TURKEY. 11660.019-, Sun Aug 31 at 1656 tune-in, S8+10/25 into UTwente, VOT English, `Letterbox` already in progress - about endangered species. Next: 5) Jayanta Chakroborty, India, who`s called almost every week. 6) --, Johore Bahru, Malaysia. 7) -- --, Forestry Dr., Finland, in Turkish about his FM DX of TRT-1 on 97.3. 8) finally, Japan where it`s 35 degrees. 1708 Cemre closing, 1709 theme. Then I catch the first part on the next broadcast:

9750.018+, Sun Aug 31 at 1846, S9+40/55 into UTwente, after `The Pulse of Turkish Foreign Policy`. 1) Gabriel Gómez, Montevideo, Uruguay, CX001, SWL since 1984 and ham CX7BI. 2) Mr Francis Moller?, Dublin, Ireland. 3) -- Ide, Tokyo, Japan, listened to Chinese broadcast for Turkish music. 4) Iran. 5) Siddartha, India, as weekly with questions: Is World Lion Day 20/8 celebrated in Turkey? World ELephant Day on 12/8? These are rather new; Turkey has more wild goats than elephants... (Glenn Hauser, OK, WOR)

** TURKEY. 9770, Sept 1 at 0455, S9+20/30 of nice songs. EiBi shows VOT Turkish at 0400-0600 (Glenn Hauser, OK, WOR)

** TURKEY. 11785, Sept 1 at 2157, VOT not off the air, IS & IDs in English, S9+10/20 direct, mostly readable vs noise level; 2201 already in olds (Glenn Hauser, OK, WOR)

** TURKEY. 11785, Sept 2 at 2156 & 2210, no signal direct from VOT English, nor at 2230 into UTwente, nor on accidentalternate 9875, only JBA 9874.919+ which would be Korea North. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 11785.009+, Sept 3 at at 2158, VOT not off the air with IS, 2201 olds in English, S9+10/20 direct. Into UTwente at 2247 when measured with music, S9+45/50; 2253 s/off as if 17620 at 1200, awry at Ankara, and IS to 2254.6* (Glenn Hauser, OK, WOR)

** U S A. 335 MCW kHz, Aug 29 at 0618 UT, BV, 25 watt NDB from BatesVille AR, seldom heard; last logged March 7 (Glenn Hauser, OK, WOR)

** U S A. 28450 USB, Aug 30 at 2320, few signals on 10m but hello`s, 1,2,3,4,5 tests in English then repeated ID fonetikaly as AB6VR, with accent, but not DX, rather in ARRL/FCC lookup: ``GONZALES, ROMEO F, AB6VR, 494 BLAKELEY DR, LEMOORE, CA 93245`` (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2309 monitoring: confirmed UT Thursday August 28 at 0130 on WRMI 5010, JBA direct in HSNL; at 0157, S8/S9 into Knoxville SDR.

Also confirmed Thursday August 28 at 1630.5 on SW Gold Radio,

Germany, 6160.001-, S9+5/10 into UTwente.

I hear from George on Aug 27 that the 5085 WTWW transmitter is operable again, so if nothing else goes wrong, WOR should appear UT Saturday August 30 at 0300.

2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2310 monitoring: confirmed Friday August 29 at 2030 on IRRS SW via AM Italia, 1322.994, S9+5 into UTwente - and still no signals on 918 or 207 kHz.

Also confirmed Friday August 29 after 2200 on WRMI 9955. At first direct it doesn`t sound like me, S9/+10 but very undermodulated. By 2206 seems me; by 2215 am pretty sure.

Also confirmed Friday August 29 at 2243 the 2230 on SW Gold Radio, Germany, 3975.002-, S7/S9 into UTwente with storm crashes.

Also confirmed UT Saturday August 30 at 0300-0329 on WTWW 5085, now back in service, still intro as ``The ministry of`` ---, complete plus music until 0331*. Next:

0930 UT Saturday WRMI 7570 to NW;
1430 UT Saturday SW Radio, Germany 6160;
1730 UT Saturday SW Radio, Germany 3975 & 6160;
1930vUT Saturday WA0RCR 1860-AM [1900/2100];
2100 UT Saturday WRMI 9395 to NNW;
2230 UT Saturday WRMI 15770 to NE;
2300 UT Saturday WTWW 9475 [suspended];
0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0400];
1900 UT Sunday IRRS SW via AM Italia 1323 and/or 918;
2100 UT Sunday WRMI 15770 to NE;
2130 UT Sunday SW Radio, Germany 3975 & 6160;
2300 UT Sunday WRMI 9395 to NNW [new];
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160 [suspended];
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];

2000 UT Tuesday IRRS SW via AM Italia 1323 and/or 918;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2310 monitoring: confirmed Saturday August 30 after 0930 on WRMI 7570: first time I`ve happened to awaken during this; despite still shown on skedgrid for blue System D as 9455, which had something else, CRR. All other programming for that hour must also be shown on wrong frequency.

Also confirmed Saturday August 30 at 1435 the 1430 on SW Gold Radio, Germany, 6160.002-, S9 into UTwente.

Also confirmed Saturday August 30 at 1600 on WRN North America and Europe streams.

Also confirmed Saturday August 30 at 1730 on SW Gold Radio, Germany, 6160.001+ S8/9+5 and 3975.001+ S8/S9 into UTwente.

Also confirmed Saturday August 30 at 1930 on WRN North America stream; and still not really on WRMI stream. And remotes could not get enough signal from WA0RCR 1860 at 1930 or later.

Confirmed Saturday August 30 at 2100 on WRMI 9395, S7/S9 into Knoxville SDR.

Also confirmed Saturday August 30 at 2230 on WRMI 15770, S9+5/15 into UTwente where it`s aimed.

Also confirmed UT Sunday August 31 from 0316 until 0345 on WA0RCR, 1860 AM, MO, S7/8.5 into IL N9AZZ remote - almost right on time. Also well audible into Knoxville SDR, S8/S9 at 0325.

Also confirmed Sunday August 31 at 1900 on IRRS SW via AM Italia, 1323 -6 Hz = 1322.994, S9+14 into nearby Noale SDR, while JBA into UTwente across Europe. And still not on 918 kHz. Next:

2100 UT Sunday WRMI 15770 to NE;
2130 UT Sunday SW Radio, Germany 3975 & 6160;
2300 UT Sunday WRMI 9395 to NNW [new];
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160 [suspended];
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323 and/or 918;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2310 monitoring: confirmed Sunday August 31 at 2104 the 2100 on WRMI 15770, S9/+15 into UTwente where

it`s aimed.

Also confirmed Sunday August 31 at 2150 the 2130 on SW Gold Radio, Germany, S9/+10 on 6160.000+ and S9+10/20 on 3975.001+ into UTwente.

Also confirmed Sunday August 31 at 2300 on WRMI 9395, S9+15 into Knoxville SDR.

Also confirmed Sunday August 31 at 2330 on WRMI 9455, S9+22 into Knoxville SDR.

Also confirmed UT Monday September 1 at 0030 on WRMI 7780, S9+5/20 with storm crashes into south Texas SDR.

Also confirmed UT Monday September 1 from 0416 the 0300v on Area 51 webcast only. As usual I start monitoring WBCQ 5130 and A51 webcast just before 0300. 5130 cuts JL off at 0300 and signs off. He keeps going and going on stream, ``overtime``. I keep listening to his ranting; says will have a special next week, but not on SW again until the following week. 0359 finally ``gotta go``, 11-L Radio, dead air. 0403 bit of music, but dead air until 0416 when WOR playback finally starts. Next:

1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323 and/or 918;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2310 monitoring: confirmed Monday September 1 from 1931 on SW Gold Radio, Germany, 6160.000+ S9/+15 and 3975.001- S9+5/10 into UTwente.

Also confirmed UT Tuesday September 2 at 0330 on WRMI 7780, S9+10/20 into south Texas SDR.

Also confirmed Tuesday September 2 at 1315 the 1300 on WRMI 9955, S9+20 into Knoxville SDR, but JBA direct.

Also confirmed Tuesday September 2 at 1425 the 1400 on WRMI 9955, S9+20 into Knoxville SDR. Next:

2000 UT Tuesday IRRS SW via AM Italia 1323 and/or 918;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2310 monitoring: confirmed Tuesday September 2 at 2000 in IRRS SW via AM Italia, 1322.994 kHz, S9+10/15 but noisy into nearby Noale SDR; after IRRS outdated canned ID claiming 7125 and 9510 kHz.

Also confirmed Tuesday September 2 at 2330 on SW Gold Radio, Germany, 3975.003+, JBA to both UTwente and DL7APJ SDRs, just WOR theme recognizable.

Also confirmed UT Wednesday September 3 at 0030 on WRMI 9395, S9+20 into Knoxville SDR.

Also confirmed Wednesday September 3 at 1930 on SW Gold Radio, Germany, 6160 & 3975 into UTwente.

Also confirmed Wednesday September 3 at 2127 the 2100 on WBCQ 7490 -72 Hz = 7489.928, S7/S9 into Maryland SDR.

Also confirmed Wednesday September 3 at 2330 on WRMI 9395, S9+10/15 into Maryland SDR. Next:

0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.

(Glenn Hauser, OK, WOR)

** U S A. Pre-`AAAWWW` chex of WBCQs, Aug 29 at 2352, into NH SDR, which is 50 Hz off compared to WWV 10000, so exact readings have been corrected: 7490 -55 Hz = 7489.945, S9+20 with FKB. 9330.005, S9+30 WLCR Brazuguese but off for rotation at 2357. 6160 +20 Hz = 6160.020, S5/S7 with CRI, but BCQ on by 2356 with IS & ID loop, S9+15/20 and 0000 into something else. 5130 by 2357 somebuzz not BCQ still past 0000. 3265 totally off.

UT Sat Aug 30 at 0000 announces that following AAAWWW was originally broadcast March 28, 2025 - never mind, see my log on that date. Now joined by 9330 only. On Thu Aug 28, Allan said ``listen tonight`` for more about the ``Laser Broadcast System`` he had been publicizing, but I assumed he really meant Friday night - not. Did anyone hear him with any new/live info about that? Anything on his X? (Glenn Hauser, OK, WOR)

** U S A. 5850, Aug 29 at 0629, JBA carrier, presumably WRMI-12 on exciter only? while CRR on 5800 & 5950 are normal; 5850 is habitually the strongest, aimed thisaway (Glenn Hauser, OK, WOR)

** U S A. 17790, Sept 1 at 2210, no signal from this WRMI, off? 17525 WMLK is good; and 15770 WRMI audible with Taiwan Spanish relay. BTW, before 2200, peanut-power 15555-USB WJHR FL can arrive much stronger than 15770 with a little help from sporadic E (Glenn Hauser, OK, WOR)

** U S A. 17790, Sept 2 at 2212, no signal from this WRMI with CRR; unclear whether off or due to degraded propagation; 15770 still audible with Taiwan relay. Same situation Sept 3 at 2210 (Glenn Hauser, OK, WOR)

** U S A [and non]. 9395, Sept 3 at 0620, WRMI a JBA carrier in degraded propagation, no signals on 9455 or 9955; but 7570, 7730, 7780 all audible. 9330 no WBCQ either; and 11725 RNZI is S9+20 the OSOB with trans-equatorial advantage during ``auroral`` conditions (Glenn Hauser, OK, WOR)

** U S A. 570, Sept 3 at 0630 UT, several WNAX IDs in passing as promoting a ``Hawaiian Beach Getaway`` next Feb. Yankton SD, and no

sign of KLIF, KWML or anything else, strange. Is U2 5/5 kW. Night pattern has a notch southward thisaway so maybe ND day pattern. In good old lower-noise days, I could hear it on daytime groundwave under DFW (Glenn Hauser, OK, WOR)

** U S A. 840, Aug 29 at 0704 UT, ID as ``WAMZ HD2 Louisville`` - and then as WHAS. Unfortunately, WTFDA FMDB does not go into what`s on HD subchannels; adding all that would be a monumental task; but now we know about this one:
``WAMZ 97.5 LOUISVILLE KY 100.0 kW 205.0 m 38-03-50 85-43-52 HD 15F9 Country 97.5  WAMZ     97.5 WAMZ Kentuckiana's #1 for Country KENTUCKIANA'S BEST COUNTRY 11921``
(Glenn Hauser, OK, WOR)

** U S A. 880, Sept 1 at 0501 UT, Spanish overcomes KRVN on E/W antenna, ``La [Tremenda?], música y deportes``. Surely WIJR Highland IL, 160 watts at night. Only other secular SS in range would be WMDB Nashville TN, ``La Ranchera`` but only 2 nighttime watts. WIJR day & night patterns have major lobe thisaway to SW from near St Louis MO (Glenn Hauser, OK, WOR)

** U S A. 1000 kHz, Aug 29 at 0653 UT, some kind of countdown of greatest moments in baseball? with crowds roaring, all over KTOK OKC with `C2CAM`. Presumably WMVP Chicago with ESPN, mentions Q105FM, presumably not an ID for this. WTFDA FMDB does not find any sports format with that slogan. Only other sports/ESPN on 1000 is KSOO Sioux Falls, 100 watts at night while WMVP is U4 50/37 kW, night pattern with notch to the SW, but minor lobe to SSW. Then heard same crowdroaring on 930, i.e. WKY OKC also with ESPN (Glenn Hauser, OK, WOR)

** U S A. 1110 kHz, Aug 29 at 0653 UT, dead air! from KFAB instead of `C2CAM`; still dead at 0657, 0701 and 0707. No one`s awake at a major clear-channel station in Omaha. If no one in charge is listening to their own station, now can they expect anyone else to? And what about ``making good`` on missing commercials, or am I the only one who noticed? Slight othersig audible underneath (Glenn Hauser, OK, WOR)

** U S A. 1110 kHz, Aug 30 at 0624 UT, KFAB modulating unlike protracted dead air last night. BTW, during `C2CAM`, KFAB is normally a second or two ahead of neighbor 1100 WTAM Cleveland (Glenn Hauser, OK, WOR)

** U S A. 1140 kHz, Aug 29 at 0652 UT, ``Real Country 100.1 FM and 1140 AM, KXRB``. It`s Sioux Falls SD, U2 10/5 kW and guess what? 100.1 is *not* a mere translator, but a hefty 2.15 kW KXRB-FM in Brandon SD, which is just east of SxF closer to the IA/MN/SD tri-state area. 1140 night pattern has a notch to the SW, but a minor lobe toward Yankton, and us? ND day pattern would be better (Glenn Hauser, OK, WOR)

** U S A. 1180 kHz, Aug 29 at 0700 UT, KZOT ID, ``Bellevue-Omaha-Council Bluffs`, still cheating at night U4 25/1 kW. Council Bluffs should be first as site is there in IOWA, NOT NEBRASKA (Glenn Hauser, OK, WOR)

** U S A. 1180, Aug 30 at 0625 UT, sports talk, LSB needed to escape KOTV IBOC noise peaking 1183. No doubt still KZOT Bellevue NE from IOWA, *still* cheating with 25 kW daypower, as first noted Aug 18 (Glenn Hauser, OK, WOR)

** U S A. 1200 kHz, Aug 29 at 0641 UT, ``Bólivar station 102.9`` is atop WOAI; do they care? NRC AM Log shows KYOO Bolivar MO is a 1 kW ND DAYTIMER! with K275CD, ``Joy 102.9``. Bólivar is just north of Springfield. Since they pronounce it that way, is it not named for Simón? Not exactly per Wikipedia:

``The name "Bolivar" was proposed by John Polk Campbell and his brothers William St. Clair and Ezekiel Madison. It is named after Bolivar, Tennessee, where their grandfather and Continental Army Colonel Ezekiel Polk had lived. In the 1830s, Polk and Bolivar names were locally associated with liberation. As such, Bolivar, Missouri is an indirect namesake of Simón Bolívar.[9]`` (Glenn Hauser, OK, WOR)

** U S A. 1290, Sept 1 at 0632 UT, news and weather with WHIO IDs in passing. Is U2 5/5 kW from Dayton OH. Night pattern has minor lobe to WSW thisaway (Glenn Hauser, OK, WOR)

** U S A. 1360.025 approx., Aug 30 at 0627 UT, LAH = low audible heterodyne from offset carrier. I fear previous logs as 1360.28 or 1360.29, may have been mistaken without the 0. In this case there is now a very recent entry in mwoffsets for 1360.033 from WWOW Conneaut OH as of 2025-08-13. I also suspected WWOW in an August 9 log, q.v. Aug 30 at 1540 UT I check the KiwiSDR at Southington OH, and bingo, it has a nostalgia station +33 Hz from 1360; calibration not checked precisely, but neighboring frequencies are closer to .00 either side of channel. NRC AM Log shows OLD format rather than NOS, but ``I love you because you`re you`` and ``You are the sunshine of my heart`` are more like NOS than OLD which applies to early rock (Glenn Hauser, OK, WOR)

** U S A. 1570, Aug 31 at 0650 UT, ``WLRS`` mentioned immediately as I pause on this frequency. This is it: New Albany IN, U1 1500/233 watts, ``Kentuckiana`s True Oldies``, address in Clarksville, per NRC AM Log. There are many, many UStations at night on 1570 under 500 watts, or under 100 watts, even two in TX at 6 and 11 watts: tough luck, XERF! (Glenn Hauser, OK, WOR)

** VANUATU [and non]. 9960, Sept 2 at 0644, RV with one of best signals I`ve had from them, tho only S4/S5 on meter, Bislama talk, 0645 drumming. No WRMI on 9955 or 9455 but audible on 9395. Back to 9960 from 7260 as first reported by Manuel Méndez last night (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 252 kHz, my JBA carrier where no beacons are likely, could well be the 750 kW broadcaster in ALGERIA, I have just realized. I have so little luck with any LWBC DX that I didn`t even consider that: ``252 kHz, Aug 27 at 0357 UT, LW beaconscan hits only one unusual, 252 kHz; trouble is, dxinfocentre.com shows only two possibilities, in SC and NS; and RNA list shows none anywhere. Now wondering if I were really tuned to 251 AM but I think not``. The remaining active EurAfrican LWs are on: 153, 162, 171, 198, 225, 252. Gedas in Indiana has been getting 198 and 225. And E Asia = all Mongolia: 164, 209, 227, per WRTH (Glenn Hauser, OK, WOR)

UNIDENTIFIED. Trans-Atlantic JBA MW carrier search, Sept 1 at 0434-0438, tuning USB 1 kHz below 9/kHz channels: 684, 711, 837, 855, 1044, 1089, 1107, 1205, 1377, 1476. then at 0438-0442 tuning LSB 1 kHz above 9/kHz channels: 549, 612, 621, 684, 711, 774, 855, 882, 1296?, 1413, 1422. Mostly UK and Spain. 684 by far the strongest: surely RNE Sevilla, 150/100 kW (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 760, Sept 1 at 0624 UT, WJR getting lot of QRM from Spanish music. Probably KMTL Sherwood AR, 10 kW daytimer. Then, it`s gone. Sherwood is a suburb on the north side of Poca Roca (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 780, Sept 1 at 0640 UT, WBBM with heavy QRM from steady equal strength 70-second loop, Skyview Networks, test tones left and right channels and then both. Calls for internet connexion, so not via satellite? For info, call the operations center at 877-503-8910. Could

be mixup at WBBM itself, or maybe KSPI Stillwater OK daytimer, or ?? Based in Scottsdale AZ per https://skyviewnetworks.com/ I could ask them where from, but I bet they would not know (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1200 kHz, Sept 3 at 0637 UT, partial ID mentioning 103.? FM, mixing WOAI. No correlations found in NRC AM Log (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1360, Sept 1 at 0618 UT, tropical music, Spanish ID as ```13-60, La [Mori?]`` NRC AM Log shows the few SS in range are all RELigious (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 5024.4, Sept 3 at 0625, JBA carrier, when on 5025.0 I have been assuming R. Rebelde, so now off-frequency too? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 6925 AM, Sept 1 at 1526, JBA talk and then off, while a JBA carrier remains on 6927. Maybe holiday pirates (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9460, Sept 2 at 2218, ME song JBA direct when nothing is normally heard; nothing listed now; suspect VOT Turkish overrun past 2055*; while 9455 WRMI is off (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 17435-17470, Aug 29 at 2213, S9 multi-carrier, multi-tones beating against each other over this approx. range. Often heard for long time but have not relogged it for quite a while. What is this? Similar things elsewhere such as circa 9.2 MHz (Glenn Hauser, OK, WOR)

UNIDENTIFIED. Sept 2 at 2215, no beacons or phone direct on 10m 28 MHz, but 11m CB 27 MHz replete with AM/hets showing that `skip is in` there (Glenn Hauser, OK, WOR)
